Automobile Tour.

An automobile tour of the Blue Grass region will take place October 8th and 9th under the auspices of the Louisville Automobile Club. Handsome trophies are offered, and in all the prize list will amount to about \$1,000. The route decided upon will be carefully surveyed by path finding cars within the near future. Maps covering the roads and their branches will be issued immediately to members of the Louisville Automobile Club, and the State organization also. The route will take in the following towns along the way: Bardonia, Lebanon, Perryville, Danville, Richmond, Winchester, Mt. Sterling, Carlisle, Cynthiana, Paris, Lexington, Georgetown, Frankfort, Shelbyville and back to Louisville. The first day of the run will carry the tour as far as Winchester, a distance of about one hundred and sixty-nine miles, where the party will stop for the night. The start from three will be made at seven o'clock Saturday morning, and it is calculated that the finish can be made by eight o'clock the same evening. Actual running time will consist of twelve hours each day, with two hours for refreshments.

River Work in Kentucky.

It will require an additional \$1,000,000 to carry out the work on the Cumberland River that is proposed by Congressman Edwards, \$1,000,000 each for the North and Middle Forks of the Kentucky River. That Congressman Edwards will get a good slice of this money to continue the work out of the next Congress we are certain, says the Beattyville Enterprise, and he says that he will do all he can to continue the work and get the appropriation for the Cumberland River sure. Three are two locks under construction in the Kentucky River now that will soon make navigation possible up to Beattyville. The site for the locks on both South and Middle Forks of the Kentucky River can be made navigable up to Owsley, Clay, Perry and Leslie counties. This is the richest coal country in Kentucky. Another lock and dam in either of the South or Middle Forks of the Kentucky River will put the slack water to the rich coal veins, and there can be plenty of coal mines, right out of the river banks.

Fine Farm for Sale.

The finest farm in Bourbon county will be sold at auction Sept. 25. It belongs to the Lockhart heirs, contains 40 acres, 180 acres of which is good tobacco land and lies on the Lexington pike, five miles from Paris, on the Interurban Railroad.

Talk to Arkle & Co.

"Our Joe" Has Resigned.

Gov. J. C. S. Blackburn's nephew confirmed the report Tuesday that the former Senator from Kentucky has resigned as Governor of the Panama Canal Zone and that he would return to Kentucky and live on his farm in Woodford county. Another confirmation of Gov. Blackburn's resignation comes from the Hon. Jake Corbett, a close friend, who resides at Wickliffe, Ky. The department at Washington has not been officially notified of Gov. Blackburn's resignation, but it is possible that it may have been sent to President Taft, at Beverly, Mass., as the office is one of presidential class.

Stratton Home Site Secured.

Trustees of the late Winfield Scott Stratton, the Colorado millionaire who was a native of Jeffersonville, Ind., Wednesday closed a deal for the Broadmoor town site, near Colorado Springs, Col., on which will be founded the Mission Station Home for the Poor. The property cost \$350,000 and has an \$8,000,000 endowment.

Mrs. Youtsey Asks for Divorce.

Mrs. Sarah Youtsey has filed suit for divorce in the Clark Circuit Court through her attorney, J. M. Stevenson, against Henry E. Youtsey, who is serving a life sentence for complicity in the murder of Gov. Goebel. The petition is brief, the grounds given being conviction of a felony and living apart for five years. The papers were sent to Frankfort Tuesday and served upon Youtsey and the divorce will be granted without opposition.

Restraining Order Granted.

Judge Watts Parker, of the Fayette Circuit Court, granted a temporary restraining order Wednesday night after hearing the petition of J. H. Hostetter asking that the city of Lexington be enjoined from adopting the proposed contract with the water company known as the Lazarus' contract. The trial has been in progress for several weeks.

Another Quake in Italy

A heavy earthquake was felt throughout the province of Siena, Italy, at 12 a. m. Wednesday. Practically all the houses in San Lorenzomere were destroyed or badly damaged. Many persons were injured.

Train Crew Captures Two of the Jail Breakers.

Two of the four negro desperadoes that choked Turnkey Allen Kiser into unconsciousness Sunday evening and made their escape from the Paris jail, were captured Tuesday afternoon by the crew of a north-bound freight train on the L. & N.

When north of Butler Brakeman Richard Brown walked over the train and was amazed to see a negro stick his head up from under some railroad ties. The darky was anxious to know how near they were to Covington. In another instant another showed his face and he was at once recognized by Brown as the much wanted negro Wm. Leer, the leader of the jail breakers.

Brown communicated his find to Conductor F. E. Lawrence and E. Moore and R. Day, two other brakemen. When the train reached Morning View the conductor secured a revolver for each man. Going to the car where the men were Leer was told to come out and throw up his hands. The other negro was commanded to do the same thing. He complied after making a futile attempt to draw a revolver identified as Turnkey Kiser's. After being searched the men were marched to the caboose with drawn revolvers and the Covington Police Department communicated with. The negroes were taken to Covington and locked up in the county jail.

Chief of Police Hill and Jailer Geo. W. Judy went to Covington on the early train Wednesday morning, returning with the prisoners on the 10:30 train. They are now in irons at their former stopping place, and there is no danger of another escape. The other two prisoners will be landed, no doubt, in a few days, as the officers have a line on them.

Conductor Lawrence and his crew will be paid the reward offered by Jailer Judy.

Loses Entire Stock.

A new disease among the turkeys in Clark county is killing entire flocks for them. The disease is similar to roup, many attribute it to the extremely wet season. Mr. S. J. Corkwright, of Clark, has suffered the greatest loss. Each year he raises a large number of the national birds, and this season he tried to eclipse all former efforts. Mr. Corkwright had thirty-two turkey hens and had settings of an even five hundred eggs. Three hundred and sixty young turkeys were the result of the hatch, and the prevalent disease has killed every turkey on the place. If this wholesale destruction continues turkey promises to be scarcer than tobacco crops in 1908, and the fellow that expect to have turkey grace his Thanksgiving board, will have to be a Rockefeller or a member of the tobacco trust.

Bourbon Fair Directors Meet.

The Directors of the Bourbon County Agricultural Society held a meeting at the court house Tuesday to make the final preparations for the old Bourbon county fair which will be held beginning Sept. 7, for five days.

President J. M. Hall presided at the meeting and there was a full attendance of directors. Mr. Hall stated that he had attended nearly all of the fairs that had been held in Central Kentucky and that the outlook for a large attendance at the Bourbon Fair never looked brighter for a banner year.

Chairman George Rassenfoss, of the amusement committee addressed the meeting and showed that the free attractions this year would be far superior to any exhibition in former years. The captive balloon, the cage to trains line, together with a midway embracing ten new shows would be features of the meeting. The chairman of the committee on music reported that Weber's military band which will play during the week of the fair would give free open air concerts each night on the grounds from 8 to 10 p. m.

A committee was appointed to request J. Miller Ward and Sanford Carpenter, two of the most widely known horsemen in America to act as judges of all speed rings during the fair.

Hon. J. T. Hinton, one of the directors, was present and informed the board that on Thursday and Friday of the fair he would be host to the board of directors and other officers of the society at a substantial dinner to be set on the grounds.

The committee on lighting the ground reported the closing of a contract with the Paris Electric Light Company for 15 arc lights and 800 incandescent lights which will make the grounds as bright as day.

The following officers for fair week were then selected: Ticket sellers—Joseph Goodman, Joe Quisenberry, Mr. Kennedy, Bev. Dorsey. Ticket takers—Thomas Padgett, Sam Ewalt, R. O. Turner, Wm. Cunningham and Mr. Goodman. Ring Marshal—J. W. Muir. Stall Marshal—J. Walter Payne. Announcer—George D. Speakes. Matron—Mrs. Frank Jacobs.

The grounds will be offered both day and night and during the day a mounted set of officers will patrol the grounds.

John C. Weber and his celebrated Military Band will give their grand concerts daily at Bourbon Fair, Paris, Sept. 7 to 11 inclusive.

The best live stock show, splendid amusement features, good free attractions, and plenty of music by Weber's band is what you can say of Bourbon Fair, Sept. 7 to 11 inclusive.

Employment for 2,000.

It is estimated that upward of 2,000 laborers will be employed in the tobacco establishments at Lexington during the coming winter.

The School Fund.

When it was announced that the school per capita for this year would be four dollars per pupil, it was meant that would be the sum derived from the State if not modified. As a matter of fact it will be more than that in some counties and less in others. Years ago bonds of the State were issued in favor of the various counties for amounts due from the State and the interest from these bonds were added to the per capita from the State. We have not seen the estimate for several years, but suppose this interest will add to the per capita for Bourbon county. What is left of the dog tax collected in each county after paying for sheep killed is also added to the school fund in each county. This will add several hundred dollars to the school fund in Bourbon.

On the other hand a sub-district receives pay for a certain number of pupils even if the number enrolled is much less than the stipulated number. This amount comes from the large districts and has the effect of diminishing the per capita.

Thus it will be seen that the school fund per pupil may vary materially in the various counties. As a fact it does vary from \$3.92 in Franklin to \$4.39 in Nicholas and Perry counties.

The per capita for Bourbon county will be \$4.21. Last year the per capita was \$3.55.

Tariff Question the Issue.

A prominent politician, well versed in national affairs, predicts that the tariff question will be the burning issue in the three next Congressional campaigns, involving the Presidential election of 1912. No human power can prevent that, he thinks. The hundreds of thousands, perhaps millions, of Republican tariff reductionists will feel that they were banded into voting the Republican ticket last year. All they have to do to convince themselves that they were grossly deceived is to compare the Payne-Aldrich monstrosity with Dingley bill and then read the Republican platform. Judge Taft's campaign speeches in the Senate by the "progressive" Republican Senators. These will make fine Democratic campaign documents and will prove beyond the shadow of a doubt that where revision was promised downward there has been revision upward; that having been promised bread, they have been giving a stone.

A Good Suggestion.

Governor Beckham wants Kentucky to embrace the privilege of placing in statutory hall in the Capitol at Washington the marble likenesses of Abraham Lincoln and Jefferson Davis. In closing his editorial upon the subject in a recent issue of the State Journal, he says: "Kentucky should therefore, present these two sons as her representatives in the National Hall of Fame. It would illustrate better than anything else, the fact that this is a reunited country; that the bitterness of sectional strife has passed away; that peace and friendship exist between the sections; and that the only memory we have of the unhappy conflict is the memory of valorous deeds and heroic men on both sides, a common heritage of renown and glory to every American citizen."

Striking Contrast.

The surplus at the end of President Cleveland's term was figured about \$84,000,000. At the end of President Harrison's term, the statisticians show, there was a deficit of \$3,500,000. And

now President Roosevelt leaves a deficit somewhere between \$30,000,000 and \$100,000,000. That's the contrast between a Democratic and a Republican administration. But then President Cleveland's conception of the great office precluded the thought of using the government finances for privileges and patronage.

Titles Without Husbands.

In offering for sale a choice assortment of foreign articles unencumbered by husbands an obliging French Marquise places on the New York market a most attractive brand of merchandise, says the New York World. Her goods should command a fair premium. They have the novel advantage of carrying with them a sort of policy of insurance. In transactions of the kind heretofore there have too frequently arisen drawbacks which escaped first scrutiny and wherein, after fuller experience, the purchase proves not to have been worth the money.

The doting young American bud, of course, enjoys the sweet distinction of being led to the altar by her new lord and heir of mortgaged baronial estates. The social flutter of the occasion is a precious form of flattery. The size of the dowry may alone involve a financial incident of as absorbing popular interest as the transfer of a railroad system in Wall street or a corner in wheat or pork in Chicago.

But when it is all over there remains the encumbrance of the husband. It sometimes requires more time and money to dispose of a prince or Duke than to get one. The divorce courts of France and England are not always so accommodating as those of Nevada. In that respect the American system is unsurpassed in cheapness and expedition, but as the foreign husband is seldom so obliging as to transplant himself to these shores for the sake of being divorced from his best means of support it is not usually available.

The new process of securing a title without a husband is a handy short cut. It dispenses with the necessity for many of the unpleasant consequences, the tedious taking of evidence, the interminable days in court and the annoying negotiations over money and children. If properly managed, for cash in hand, it can be closed up with out any chance of future wrangling. As a use for surplus millions it can be made a convenient outlet by buying two tiles in a lump instead of undergoing the formalities of being married, divorced and married a second time.

To Increase Happiness.

An exchange gives the following as a receipt for happiness and long life, which would surely have the desired effect if carried out:

"If you would increase your happiness and prolong your life, forget your neighbor's faults. Forget all the slander you ever heard. Forget the fault-finding, and only remember the good points which make you fond of them. Forget all personal quarrels of histories you may have heard by accident, and which if repeated, would seem a thousand times worse than they really are. Blot out as far as possible all the disagreeableness of life; they will come, but will only grow larger when you remember them. Obliterate everything disagreeable from yesterday, start out with a clean sheet today, and write upon it for a sweet memory's sake only those things which are lovely and lovable.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM...it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Sold Him Ocean Bottom.

The Winchester Democrat gives us this little sketch of ancient history, viz:

Along in the early 50's several years before the outbreak of the Civil War, an old German came to this county and bought a river bottom farm in the winter time when it was covered with snow. He was much pleased with his purchase until the melting snows in the mountains and unusually heavy spring rains caused a big tide in the Kentucky River, and those familiar with the freshets in that stream know that they come in a hurry.

When the water began to come up the old German and his wife began sleeping in a skiff that was in the barn. That night they felt a movement of the boat and knew that the water had gotten into the barn, but having had no experience with high water no attempt was made to row the boat out of the barn.

The farm was on low ground, and the water rose rapidly carrying the skiff midway of the barn. When day broke and it was light enough to see, the old German and his wife awoke to the realization that they were floating prisoners in the hayloft. He began pushing the boat from one side to the other to peep through the knot holes, and his wife would ask him what he saw. "Vater," he answered at each of the four sides of the barn, "Vater, und nodings but vater und tree tops." His wife became angry and said: "You old lunkicker; you let the little boat stay in the barn and ve are shut up like rats in a trap; you should know better as that."

The old German took his eye from a knot hole and bowed to his wife. "I vas not so much surprised," he said, "dot I shuld de little ship away but I vas knocked out so completely ven I dink dat I vas so full of dope dot I let dot plack viskered tief sell me de bottom of de oshant to start a farm in."

Soldier Balks Death Plot.

It seemed to J. A. Stone, a civil war veteran of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For severe Colds, obstinate Coughs, Hemorrhages, Asthma, and to prevent pneumonia it's unrivalled. 50c and \$1.00. Trial bottle free. Guaranteed by Oberdorfer, the druggist.

The Railroad King.

With the financial world almost at a standstill while awaiting definite news of his condition, Edward H. Harriman arrived at New York Tuesday and immediately went to his country home on the Hudson to rest and recover his strength after the drastic treatment undergone in Europe. The railroad king was apparently a very much fatigued man. He was pale and weak and leaned heavily upon the arm of his secretary as he left the steamer. On his private car, Mr. Harriman reclined upon a couch and talked freely to newspaper men. In spite of his condition, he was cheerful and has lost none of his keen interest in the world about him.

The Cruel World.

"Lady," whined the lean tramp in the vestibule, "it's raining and blowing a tornado outside. Can't yer give a poor man a bite a night like this?" "Bite?" snapped the stern housewife as she slammed the door. "Not a bit of it. Why don't you go up against the teeth of the gale?"

Elderly People Helped Free

The last years of life are the sweetest, and yet the most difficult to prolong. It is then that the greatest care is exercised in maintaining bodily health. But the chief care should always be with regard to the food you eat and whether you are digesting it properly. You should not allow yourself to become constipated.

No doubt you have tried salts and cathartic pills, purgative tablets, etc., and have come to the conclusion that they are violent in action and do but temporary good. Listen, then, to the voice of experience with regard to a wonderful and mild laxative, Dr. Caldwell's Syrup Pepsin. It is not new, only we are trying to find new friends for it.

A. A. Felts, of Johnston City, Ill., suffered from stomach trouble for six years and found his cure in Dr. Caldwell's Syrup Pepsin. His wife uses it too with success. We could name hundreds of others. Some heard of it first through neighbors or friends; others through the doctor's offer to send any sufferer from a stomach, liver or bowel complaint a free sample bottle for trial, without charge. If you will send your name and address he will send you a trial bottle direct to your home. If it proves itself as he claims then continue the treatment by buying a 50-cent or \$1 bottle of your druggist, as all of them sell it. Old people, like children, should look for purity, and it is well to mention that the purity of this remedy is vouched for with the U. S. government. Also, though a free bottle is sent to prove its merits, results are guaranteed. If you are not satisfied, return the bottle to your druggist, who will refund your money if it does not satisfy you. Send at least for the free test bottle today.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 500 Caldwell bldg., Monticello, Ill.

Federal Quarantine for Sheep Scab in Kentucky Modified.

The quarantine recently declared by the United States Department of Agriculture on the State of Kentucky on account of the disease known as scabies in sheep has been modified so as to permit the reforwarding in interstate commerce of shipments from other states of sheep that are free from scabies and from exposure thereto, and that in transit through Kentucky are unloaded at points in that State, providing such unloading shall be into pens or yards which have been specially cleaned and disinfected for the purpose, under the supervision of an employee of the Bureau of Animal Industry, and which have been specially designated and approved for that purpose by the Chief of the Bureau of Animal Industry.

The quarantine has also been modified so as to permit the interstate shipment of sheep of States not quarantined for scabies, which are exhibited at the Kentucky State Fair to be held in Louisville, September 13 to 18, subject to the following restrictions:

Such sheep shall be shipped by rail to Louisville and shall not be unloaded in the area quarantined for sheep scabies elsewhere than Louisville. Separate cleaned and disinfected chutes and other facilities shall be provided for the exclusive loading and reloading of such sheep at Louisville. Such sheep shall be hauled in cleaned and disinfected wagons direct from the cars in which they arrive at Louisville to the fair grounds, and from the fair grounds direct to the cars in which they are to be reshipped.

That portion of the fair grounds or other premises to be occupied exclusively by such sheep shall be cleaned and disinfected under the supervision of an employee of the Bureau of Animal Industry before said sheep are placed therein.

Such sheep shall not be moved interstate from Louisville except in clean and disinfected cars, nor unless accompanied by a certificate issued by an inspector of the Bureau of Animal Industry showing that the sheep have had no opportunity to become infected with scabies.

GOOD NEWS.

Many Paris Readers Have Heard It and Profited Thereby.

"Good news travels fast" and the thousands of bad back sufferers in Paris are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is bad no more, thanks to Doan's kidney pills. Thousands upon thousands of people are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

Mrs. Margaret Witzel, 318 Mero street, Frankfort, Ky., says: "The cure Doan's Kidney Pills effected in my case five years ago has proven lasting and I gladly corroborate every word I said in my previous statement. I was troubled for a number of years by a persistent ache across the small of my back, and through my kidneys. The pains were often so severe that I could hardly endure them. At night I suffered more intensely and arose in the morning feeling tired and worn out."

The kidney secretions were irregular in passage, unnatural and contained a sediment. I finally saw Doan's Kidney Pills highly advertised and procured a box. In a short time after using them, I noticed that they were helping me and soon the aches and pains disappeared and my kidneys were restored to their normal condition. I am always pleased to give Doan's Kidney Pills my recommendation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Reduced Freight Rates to the Kentucky State Fair.

The Kentucky State Fair Management announces that it has secured a positive reduction in the switching charges into the Kentucky State Fair Grounds on all kinds of freight, including live stock, from \$7.00 per car in and \$3.00 per car out. They believe that in a short time they will be able to induce the railroads to absorb all the switching charges and, in fact, have the promise of some of the railroads to do so and are anxious that all exhibitors know that they will not have to pay such a high rate, even if they have to pay anything, as they paid last year.

Warehouse Company Liquidating

The Bourbon County Tobacco Warehouse Company is liquidating. J. A. LaRue, President, and John T. Collins, Secretary, have been busy paying to shareholders one hundred cents on the dollar. The earnings will be paid out later.

Irish Magistrate's Way.

Nearer seven feet tall than six was the father of the present earl of Enniskillen. He was a magistrate and a mighty fox hunter. He used to come to the "justice room" ready dressed for hunting quite early in the morning, in order to hear cases before he started off to the meet. His practice was to hear the plaintiff and then horsewhip the defendant, abusing him for behaving in such a blackguardly manner. Then he heard the defendant and afterward horsewhipped the plaintiff. It is said that both parties left the court perfectly satisfied, each saying that the other had been horsewhipped by his honor.

To the Growers of Tobacco in Bourbon County.

The pooling solicitors are in the field. They are expected to visit every grower in the county. Since the solicitor is required to call but once it is important that landlords and tenants shall have consulted and decided what they will do, so that he can correctly put down their names on the pooling or on the non-pooling list.

If you pool, your act is in order to have a voice in pricing and weighing your tobacco.

To pool is to vote for a seventeen, instead of a six cents price on your tobacco.

To pool is to help yourself and your brother farmer to liberty, and your families to a better living.

Not to pool is to deprive yourself and your fellow farmer of your right to a voice in fixing the price and the weight of your product, and, in an unbusiness-like way, to wholly turn over the pricing and weighing to the tobacco trust, having this power it will oppress you.

Not to pool is to do what you can to defeat a peaceable move to throw off oppression, and to obtain a better living for your families.

Remember nothing so rivets the chains of oppression upon a people as a continued and tame submission to being wronged.

The trusts have not, and cannot, defeat the farmer. He can easily defeat himself by not pooling.

Chairman of Bourbon County Board of Control.

TUESDAY'S GAME.

The Bourbonites went down in defeat Tuesday afternoon at the hands of the Winchester Hustlers by a score of 5 to 3. The crack Toney of the Hustlers lasted only three innings, when he was replaced in the box by Burden, who kept the Bourbonites down to three hits for the last six innings. Toney as touched up for six hits in the three innings he pitched.

Schenburg looked good for a great game, but went up in the air in the sixth inning, when the visitors landed on him for six hits, scoring four runs. Schenburg then retired in favor of Poole, who had great control and speed, fanning five off the Hustlers' heaviest batters. Among the features of the game were the fielding of Ochs, Dugger and Scott. The following is the score by innings:

Paris.....00201000-3
Winchester.....10000400-5
Two-base hits—Seeback, Vandine, Reed. Struck out—by Schenburg, 1; by Poole, 5; by Toney, 3; by Burden, 4. Base on balls—Schenburg, 1; off Toney, 1; off Burden, 3. Left on bases—Paris, 12; Winchester, 7. Passed balls—Horn. Hit by pitcher—Toney. Hits off Toney—6 in three innings; off Burden, 2 in six innings; off Schenburg, 9 in six innings. Umpire Piepho.

WEDNESDAY'S GAME.

The Bourbonites had their batting clothes on at Frankfort Wednesday and drove Baker from the mound for Frankfort in the first inning. Wright relieved him and fared but little better. The score was 6 to 3 in favor of Paris. The features in the play of the Bourbonites were the batting of Dugger, Barnett and Ochs. In fact, every man on the team, with the exception of Winchell, hit the ball hard, and seventeen hits were secured by them. Frankfort secured ten hits off of Winchell. Following is score and summary:

Paris.....20003010-6
Frankfort.....000000210-3
Earned runs—Paris 4; Frankfort 3. Home runs—Bohannon, Yantz. Two base hits—Ochs, Elgin Angemier, Wright. Hits—off Baker 3; off Wright 14. Left on bases—Paris 10; Frankfort 9. Sacrifice hits—Scott, Strader. Stolen bases—Ochs, Seeback. Struck out—by Winchell, 2; by Wright 1. Base on balls—off Winchell 1. Hit by pitcher—Baker. Double plays—Goodman to Seeback; Bohannon to Crutcher to Angemier. Time 1:40. Umpire—Hanley.

YESTERDAY'S GAME.

The game at Frankfort yesterday was won by the Lawmakers by score of 5 to 2. Poole was on the mound for the Bourbonites, but was relieved in fifth inning after Frankfort had made four runs. Dugger was then put in to save the game but it was too late, as the game was already lost. Crutcher pitched for Frankfort. We were unable to learn any of the particulars of the game, as the boys did not arrive

home until after we went to press. The score, however, tells the tale, which is bad enough without any comments. The following is the score by innings:

Paris.....000001100-2
Frankfort.....011201000-5

Quicksteps Break Even.

The Paris Quick-Steps, the colored base ball aggregation of this city, went to Maysville for a couple of games this week with a colored team of the latter city, losing the first game by a score of 7 to 2 and winning the last game by a score of 9 to 3.

New Aeroplane Record.

Paulham broke the world's record for duration of flight, remaining in the air two hours, fifty-three minutes and twenty-four seconds at Rheims, France. He descended only when his fuel became exhausted. Glenn H. Curtiss, the only American contestant in the aeroplane races, covered a lap of the course in an effort to break the record for this distance, made by Bleriot. Paulham used a Wright machine.

Tool of the Machine.

Addressing an audience of 10,000 at Anderson, S. C., Wednesday, at a reunion of the "Red Shirt" men, who in 1876 wrested the political machinery of the State from the negroes and carpet-baggers, United States Senator Tillman declared that President Taft is "the tool of a great political machine," and that the President's appointment of census enumerators in the South is but a furtherance of his efforts to break the "solid South." He said the "machine" is preventing Mr. Taft from carrying out his intention, as expressed in his Atlanta speech.

Senator Tillman warned the people of the State against compulsory education, saying that it would prepare the negro for the ballot and might in time result in them controlling elections in South Carolina.

The reunion was featured by a parade, in which several thousand members of the "Red Shirt" brigades participated, mounted and wearing red shirts. Many women took part in the parade.

Resting in Seclusion.

Two thousand feet above the sea level, at his country estate near Arden, N. Y., Edward H. Harriman is resting in seclusion Wednesday night. Shielded from business cares, harried from visitors, practically isolated in his mountain home, he disappeared from the public eye in a manner no less romantic than his display of grit upon his arrival from Europe Tuesday.

With the click, click of the automatic railway that bore him, seated in an automobile to his lofty home Tuesday night, he was whisked from view like a stage manikin in a toy automobile. Then the curtain dropped and news of E. H. Harriman almost ceased.

Willson Speaks.

The leading feature on Wednesday's program of the annual convention of the American Bar Association in session at Detroit was an address by Gov. Augustus E. Willson, of Kentucky, who spoke on "The People and Their Law." In the course of his address interesting incidents were presented concerning the "night rider" depredations in Kentucky's tobacco war.

Six-Legged Lamb.

Mr. John Burgess, a Bourbon county farmer, has one of the most remarkable animal monstrosities that has been known in this section of the country for a long time.

The creature is a lamb and its remarkable features are two extra legs which it uses with more or less dexterity and which are as well shaped and as perfectly formed as its four regular, ordinary common sheep understandings.

This lamb, which Mr. Burgess proposes to exhibit at the Bourbon county fair was born in the late spring and has lived and thrived like the other youngsters of his flock. The two extra legs are located close to its front legs and during its short existence of a few months it has attracted considerable attention in the neighborhood of Mr. Burgess' farm.

Coyotes in Fleming.

Several coyotes have appeared in the Fleming county, reports the Gazette. The animals have been in the vicinity of Locust for several years, and came from a pair of pet coyotes brought there by one of the residents. In the past year or so several of the wolves have been killed, and several of the pups were captured. They are very shy, however, and it is difficult to get within gunshot of them.

She Turned Other Side.

The Georgetown, O., News-Democrat says that Mrs. Annie Herrod, a woman evangelist hailing from Maysville, Ky., has been having a tempestuous meetings at a campmeeting near Satterfield's Chapel, in Adams county.

She had lambasted secret orders and backsliders with stinging phrases, when, on Friday night of last week, she was suddenly confronted by a big tomato. It struck her in the side. Turning to the hoodlum who threw it she cried: "I'll remember the Biblical injunction, and turn the other side to the enemy!" Nothing more coming she finished her sermon without interruption.

After Masonic Home.

The Masonic lodges of both Paducah and Elizabethtown extended handsome offers to the board of trustees of the Masonic Grand Lodge of Kentucky if they would move the old Masonic Home, at Shelbyville, to their respective towns. The board expressed the opinion that it was independent to move the home from Shelbyville. The Masons of Paducah extended an offer of \$5,000, with a possibility of increasing the amount to \$10,000, if the board would consent to remove the home to that town. Elizabethtown Masons offered several sites or \$5,000 in cash to take the home there.

Performed Two Ceremonies.

A marriage in England, with two ceremonies, attracted some interest. The bridegroom was Charles Cooper, who has long been associated with the ethical movement in England. The mother of the bride objected to only the civil marriage and he objected to a marriage in a church. So in the morning the civil marriage was performed and in the afternoon an ethical marriage at the home of the bride. The vows taken were the same as those taken by persons married in the orthodox way, and the ethical phase was not very evident.

Election Commissioners.

After electing Adolph Wells as secretary for the ensuing year as an endorsement of his first year of service, the State Board of Election Commissioners at Frankfort Wednesday afternoon appointed County Election Commissioners for most of the counties in the State. The Democratic list was not ready Wednesday morning when the commission met, so an adjournment was taken until afternoon.

The first county where there was a protest was Bourbon, where the Republicans did not want the old commissioner appointed. The commission agreed without any trouble on the man selected by Judge C. R. McDowell, the Democratic member.

For Bourbon, Pat Kane, Republican, and Ed Rash, Democrat, were named by the commissioners. The Sheriff of the county is the third member by law.

World's Trotting Record Smashed

Hamburg Belle defeated Uhlman in two straight heats in their match race at Cleveland, O., Wednesday and also set a world's record for a trotting race and for the fastest two heats ever trotted. The new record for a mile is 2:01 1-4 and was made in the first heat of the race. The former record of 2:03 1-4 was held by Wresceus. The stallion made the record in a match race with the Abbot at Brighton Beach in August, 1901.

Sweet Marie formerly held the record for the fastest two heats trotted, having made miles in 2:04 1/2 at Syracuse, N. Y., September 12, 1906. Hamburg Belle's time is 2:01 1/2 and 2:01 1/2.

Immediately after the first heat Hamburg Belle was sold to H. M. Hanna, of Cleveland, for \$50,000 by Edward and Joseph Madden, owners of the mare, and sons of John E. Madden. Mr. Hanna will permit the mare to finish her season, including the series of races of two best in three between the mare and Uhlman.

DESIRABLE Bourbon Farm.

For purpose of division, I will offer for sale at public auction, at the court house door, in Paris, Ky., at 11 o'clock, a. m., on

Saturday, Sept. 25, 1909

the farm owned by and known as the Edwin Bedford farm, consisting of

400 Acres of Rich Farming Land.

The tract fronts on the west side of the Maysville & Lexington turnpike, and lies immediately on the interurban railway from Paris to Lexington, and is situated about five miles from Paris and twelve miles from Lexington. It is well watered, and has 180 acres of splendid tobacco land. It is one of the most productive farms in the Blue Grass region.

The improvements consist of a house of six rooms, and two tenement houses, two large tobacco barns, and all necessary farm buildings, such as stock barns, corn cribs, etc.

This is one of the most desirable farms between Paris and Lexington, and if you are looking for land that will increase in value and produce the finest crops, this is what you want.

TERMS.—One-third cash, balance in one and two years, equal payments, negotiable notes, bearing interest at six per cent. per annum until paid.

Sunday School "Home Coming."

Mr. Walter Clark, the new superintendent of the Baptist Sunday School, is arranging for a "Home Coming" of the school on the first Sunday in September. A splendid program is being prepared. The Spears Mill School will meet with the Paris School in the morning and the Paris School will go to Spears Mill in the afternoon. The Paris Baptist Sunday School will burn their 1,000 note on the above occasion which amount the school has paid on the new church building.

Not a Plaything.

Several nights of the last two weeks we, as well as others, have been greatly annoyed by a lot of young fellows who persist in changing or destroying the figures placed on the scoreboard in front of the News office. The board was made and the scores of the Blue Grass League are posted each evening for the benefit of the public, and when the numbers are switched they leave the public under the false impression as to the result of the games. These little acts of the young hoodlums have grown quite frequent of late and we are forced to take some steps to prevent the board from being tampered with and we would thank anyone who should by chance see any of the youngsters about the town changing the numbers on the board, to tell us, that we may report the matter to their parents and have them apply a little persuasion that may put a stop to this kind of "smartness."

Returned From the East.

Mr. and Mrs. Harry Simon are at home from the East where they have been selecting their fall and winter stock to open their handsome new business house. Mr. Simon informs us that they have selected the most extensive stock of dry goods, notions and ready-to-wear suits, ever brought to Central Kentucky, and the ladies of Bourbon and surrounding counties will have no trouble to find what they want at the handsome new store of Mr. Simon's, which will be opened in due time for the fall trade. The new business house of this enterprising merchant, which is an ornament to our town, will be filled with new goods entirely, with prices to suit everybody. Their long experience have peculiarly fitted them for the selection of goods to suit the wants of the trade, and they have this season taken especial care in selecting their stock for the new store room. They ask you to call after the opening and be convinced.

Threshing About Over.

The threshing of wheat in Bourbon is at last practically completed. The crop has proven a very inferior one and greatly damaged by the wet weather. The crops which were sold at \$1.00 per bushel some time ago to be delivered in good condition have been accepted by dealers at a discount of from 15 to 45 cents per bushel, and in some instances crops have been refused at any price. A number of farmers are feeding the grain to hogs.

AN ENERGETIC FORCE.

The Organization of the Kentucky
State Fair Work.

Few realize the amount of labor and the amount of organization that it takes to put on a State Fair. On September 13th at Louisville will be opened the seventh annual Kentucky State Fair. Visitors will find on exhibition the best specimens of practically every product of the state. To collect these exhibits and to systemize them so as to have everything ready for inspection and to operate the same for six days, costs about \$50,000. First comes the secretary, who is charged with the responsibility of getting everything in readiness together with a large clerical force, then the heads of each department, which is always some member of the State Board of Agriculture, with superintendents and assistants sufficient to look after each exhibit; a force of watchmen, guards, ticket sellers and takers, laborers, etc., until if the whole force were gathered together it would represent a good-sized army. Each person is adapted to handle his particular work, and no more system is required in any great industrial plant than in an exhibition of such magnitude. It was through this thoroughly organized force that all the details of last year's fair was worked out in such an incredibly short time. And the energy displayed by such a force is one of the interesting things to be noted at a state fair.

A FINE OUTING.

Tenting on the Kentucky State Fair
Grounds.

Arrangements have been made for those who want to take a week's outing to have their own tent upon the State Fair grounds. Persons desiring a tent should write to Secretary Newman of Louisville, Ky., and notify him, and tents can be secured and furnished to visitors at actual cost. Many persons have an idea that they can take in the entire fair in one day, when in fact six days can be very profitably spent in studying the various exhibits that will be upon the grounds. Many for the first time visiting the State Fair for one day, leave with the determination to come again the next year and spend several days and make their arrangements accordingly.

ADVANTAGE TO FARMERS.

Equity and Grange Headquarters at
the Kentucky State Fair.

The Kentucky State Fair management for the week of Sept. 13-18 has provided a tent to be known as Equity Headquarters, and also one to be known as Grange Headquarters, for the use of members of these organizations, free of cost. It is to be hoped the farmers will make use of the accommodations provided for them and feel perfectly at home during the fair week.

Pain's Fireworks at the State Fair.

The State Fair will again have Pain's Fireworks as a night attraction. Novelties in fireworks not heretofore seen will be introduced and a magnificent display of forty numbers will be given each night, including such devices as "The Weird White Falls" on a gigantic scale, 200 feet long and 25 feet high. Also, a wonderful device known as "Fighting the Flames," showing a house burning, with the fire engine playing water upon the flames, all done in fireworks. Monster portraits of well-known people. The Pain company will also put on a wonderful new device known as "The Pillar of Light," showing a pillar of fire of intense brilliancy rising fifty feet in the air, making the entire surroundings as bright as day.

In connection with the fireworks there will be provided entertainment by noted specialty artists, and a big concert each night by the band, making a most charming evening and one long to be remembered.

Tobacco at the State Fair.

A most liberal premium list is offered for tobacco and a large and valuable exhibit is expected. Classes are provided for the following Burley types: Red Leaf, Bright Leaf, Cigarette Wrapper and Bright Trash. The dark types are Black Wrapper, Long or African Leaf, French Leaf, Italian Leaf, Green River Leaf and Stemming Leaf. In addition to the regular prizes, Hon. M. C. Rankin offers \$75 in specials for the best display of Burley crop, best display of Dark Tobacco and the best display of Green River Tobacco. Not more than four samples can be entered of a single crop, but if exhibitor has more than one crop raised on his farm he is entitled to four samples out of each crop.

Horse Show at the State Fair.

At every fair, whether big or little, in Kentucky, the horse show is one of the predominant features, and the Kentucky State Fair of 1909 will be no exception. With one of the most attractive classifications ever offered at a Southern fair, with high class judges to tie the ribbons and the best covered show arena in the world, there should be horses enough and of choice quality at this show. As the horse exhibit can usually be depended upon to take care of itself, it is believed that with the addition of the night show feature an unusual array of equine celebrities will be paraded before the public.

For catalog, entry blank or other information, write J. W. Newman, Secretary, 320 Paul Jones Building, Louisville, Ky.

Water at Meals In Hot Weather.

Do not drink water or other liquids when you have food in your mouth, for one part of the danger of drinking at meals is that the fluid may wash down into the stomach particles of food which have not been thoroughly masticated and impregnated by the digestive juices in the mouth.

The second danger, especially in summer, is that your drink may be too cold, like ice water, which so many foolish persons indulge in too much.

When you swallow ice water at mealtimes the water simply paralyzes the walls of the stomach for a time and stops the flow of gastric juices until the body warmth has overcome the chill and allows the juices to flow once more. But if you chew your food well and DO NOT DRINK VERY COLD FLUIDS there is no danger.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Last Survivor of Hamilton Guards.

The Mt. Sterling Gazette says: "Mr. James A. McDonald, of Kansas City, Mo., is a guest of Mrs. General John S. Williams and Mrs. Ida Stoner, at their country home, 'Longwood,' near this city. Mr. McDonald, a former Kentuckian, is the last survivor of the noted Hamilton Guard, organized in Bourbon county, and named in honor of Mrs. Williams, who was at that time the widow of Hamilton. The Hamilton guards served with great distinction throughout the Civil War as Company G., of the Second Kentucky Regiment in the grand old Orphan Brigade. Mr. McDonald in his yearly trips to Kentucky always is a most honored guest at 'Longwood.' The Hamilton Guard's were captured at the fall of Fort Donaldson under General Buckner. Among the prized relics at Longwood, of war times is a collection of pictures of this company taken in Camp Chase and sent by the 'boys' to Mrs. Hamilton. Of all that gallant band, of whom Capt. Edward Spears, Dan Turner, Abiga Brook, Capt. Hope and many others, only Mr. McDonald remains, and the tears filled the eyes of the gallant old soldier as he looked again upon the faces of his beloved comrades of so long ago, and with Mrs. Williams talked over the happy, gay and sad days long passed when the dear old boys of Bourbon county wore the gray with high honors on the greatest battle fields of the South. Mr. McDonald will be a guest at 'Longwood' for several days."

A Quandary.

"A necklace of diamonds has been stolen from me!" said Mrs. Cumrox. "Aren't you going to notify the police?" "I don't know what to do. It does seem rather classy to be robbed of jewelry; and yet I hate to have people think I'd ever miss a little thing like a necklace."

Revolts at Cold Steel.

"Your only hope," said three doctors to Mrs. M. E. Fisher, Detroit, Mich., suffering from severe recital trouble, "piles in an operation," then I used Dr. King's New Life Pills," she writes, "till wholly cured." They prevent Appendicitis, cure Constipation, Headache, 25c at Oberdorfer's drug store.

Tuberculosis Conference at Lexington.

The joint Committee from the various anti-tuberculosis Associations in the State which have been engaged for the past few weeks in perfecting plans for the organization of a State Association, has announced that all preparatory arrangements have been made and a conference between representatives from each county in the State will be held late in September, at which definite action will be taken.

Two minor conferences have already been held between officers of the six associations which have already been organized and the September meeting was arranged in order that the needs of the State might be considered, from the view point of the citizens of every city and county. The proposed meeting will be held in Lexington and a very interesting and instructive program has been arranged, it is said, which will cover a period of two days. Some of the best known specialists of the country will be invited and the number of public spirited laymen, as well as medical men, who have signified their intention of attending, has already insured a most interesting convention.

Daily Health Hint.

Candies and sweet articles are highly concentrated nourishment that ought, when eaten, to be mixed with coarser food in order to secure proper digestion. This kind of food is more likely to turn acid on a weak stomach than any other, while none so surely tends to produce constipation.

How to Kill Flies.

A good fly poison not dangerous to human life is a solution of bichromate of potash, one, dram dissolved in two ounces of water and sweetened with a little sugar. Put some in shallow dishes and place throughout the house. Flies are no more dangerous now than they always have been, but the occasional mysterious occurrence and SPREAD OF COMMUNICABLE DISEASES have now been charged to their account.

Sleep on the Veranda.

If you cannot camp out in hot weather, SLEEP ON YOUR VERANDA. Fresh air twenty-four hours a day will preserve youth or renew it. A Nantucket hammock or a cot and a few yards of mosquito netting will make you comfortable.

Simple Summer Cures.

Keep a bottle of witch hazel and one of hydrogen peroxide in easy reach of the children, who frequently injure themselves playing indoors in the summer. Teach them to apply the witch hazel for bumps and bruises. The fact that they are doing something for themselves gets their minds off the hurt.

Teach them that the peroxide is to cleanse all open wounds and kill all pus germs. By these two remedies much weeping and many troublesome sores and FEAR OF BLOOD POISONING may be prevented.

rings in which prizes are offered, and
there is a total of over 300 lots.

The horse classification is subdivid-
ed into classes suitable for light har-
ness, five-gaited saddle-horses, road-
sters, combined harness and five-gait-
ed horses, American carriage horses,
three-gaited saddle-horses, combination
horses, plantation saddle-horses, high
stepping and runabout classes, Shet-
land ponies and fine horses.

Good premiums are given for both
mules and jack stock.

In the beef cattle department, Short-
horns, Herefords, Polled Durhams,
Aberdeen-Angus and Red Polls are
given most liberal classifications. In
the Dairy Cattle Department, Jerseys,
Holstein-Friesians, Guernseys and
Ayrshires are recognized. The swine
department includes Berkshires, Pol-
and Chinas, Duroc Jerseys, Chester
Whites, Tamworths, Hampshires and
Yorkshires. In the sheep department
prizes are offered for the following
breeds: Shropshires, Southdowns,
Oxfords, Hampshires, Cotswolds, Dor-
sets, American Merinos, Delaine Me-
rinos, Rambouillets, Lincolns, Cheviots
and also a class for Angora goats.

The poultry department covers ev-
ery known standard variety. The
same is true of the pigeon department,
the prize money for these departments
being much larger than last year. The
department for vegetables and melons,
field seed and grain and tobacco con-
tains classes for almost every product
grown on the farm. In horticulture
there are over 700 prizes offered for
apples, peaches, pears, grapes and mis-
cellaneous fruits. Plants and flowers,
one of the most beautiful and attrac-
tive exhibits of the State Fair, will be
well taken care of this year and will
be placed alongside of the women's
department. In no department is
there a more interesting collection of
premiums than in that set aside for
woman's work, children's work and
table luxuries.

FINE DAIRY STOCK.

Holstein-Friesians at the Kentucky
State Fair.

The Holstein-Friesian has long been
known to Kentuckians as a great milk
producer, but there has been no con-
certed action among the breeders of
this dairy cow in Kentucky. The fact
that the three hospitals for the insane
and the state feeble-minded institute
at Frankfort have decided to use this
breed altogether in their dairies, re-
quiring six or seven hundred cows, is
a great stimulus to the breed in Ken-
tucky.

The \$350 donated to the Kentucky
State Fair by the Holstein-Friesian
Association is in great measure due
to Stanley Milward, a member of the
board of control for these institutions,
and a recognition on the part of the
Holstein-Friesian Association of the
value such a move would be to this
breed of cattle in the state. The asy-
lums will have on exhibition at the
Kentucky State Fair some of the best
specimens of the black and white dairy
cows to be found in the country.

Students' Judging Contest.

Commissioner M. C. Rankin has of-
fered two sets of prizes for farmer
boys in this state and for the students
in the Agricultural College. The
amount for farmer boys is \$100, to be
awarded to the young man who makes
the largest score in judging livestock
at the State Fair. This money to be
used as scholarship to the Agricultural
Department of the State University,
the contestant to be required to file
written opinion, with reasons there-
for, on horses, cattle, swine and sheep
exhibits. The prize for students' judg-
ing contest amounts to \$50, to be di-
vided into \$20, \$15, \$10 and \$5. Com-
petition will be limited to students in
the State University. It is the pur-
pose of the commissioner in offering
these specials to educate the young
men of the state in livestock judging.
The requirements are quite liberal,
and there is no reason why any bright
young man in the state should not en-
ter the contest.

The Louisville public schools will
for the first time have an exhibit of
the work done in the various grades
upon the State Fair grounds this year
during the week of Sept. 13-18. The
Kentucky State Fair is getting to be
more and more an educational institu-
tion, and it is hoped before many
years to have a great display of the
work done in the various schools of
the commonwealth.

The Secret of Long Life.

A French scientist has discovered
one secret of long life. His method
deals with the blood. But long ago
millions of Americans had proved
Electric Bitters prolongs life and
makes it worth living. It purifies,
enriches and vitalizes the blood, re-
builds wasted nerve cells, imparts life
and tone to the entire system. Its a
Godsend to weak, sick and debilitated
people. "Kidney trouble had blight-

Madstone.

The madstone is a stone popularly
supposed to cure hydrophobia. Such
stones, usually of the size and shape
of an egg, are superstitiously pre-
served in parts of the United States,
because they are believed to absorb
venom. The madstone is a light, por-
ous stone of greenish color. They are
quite rare, being only occasionally
found in the south.

Swinburne and the Cabman.

In his youthful days Swinburne had a quarrel with a cabman over his fare. The cabman abused the poet mercilessly. Addressing him Swinburne said: "And may I invite you to descend from your perch and hear how a poet can swear?"

Prepared for Death.

At the funeral recently of William Lakin, aged 90, in Stapenhill churchyard, Burton-on-Trent, England, it was found that he had bought his vault 30 years ago, and since then had personally bricked in his wife and daughter and other members of the family. He had lived within a stonethrow of the grave over 80 years.

Apparently.

It appears to be pretty hard for one to get along very fast or very far in this world without being willing to make promises.

Preparing for Dedication of New Capitol.

If the plans of the Dedication Committee are carried out in detail the dedication of the new Capitol at Frankfort will be a pretentious event. The principal feature will be the reception by the state officers in their respective offices of the new building.

Governor Beckham and Governor Willson will receive in the Governor's room, Auditor James and Auditor Hager in the Auditors' Department, Treasurer Farley and Treasurer Bosworth in the Treasurer's room, and so on.

Governor Willson will preside and introduce the real orator of the day, to be selected by a committee of five, who will be appointed and agreed upon by the State Capitol Commission, the Business Mens' Club of Frankfort and a number of prominent citizens of that city. It was agreed to that former Governor Beckham should be on the program for an address, and many of the citizens of Frankfort desire him selected as the real orator of the occasion.

A big ball in the State reception room at the new Capitol will be given, and an overflow ball will be given at the Collisium Building.

It has been agreed that the dedication will not take place until after the November election. Attorney-General Breathitt presided and J. M. Vander Verr was secretary of the meeting. L. C. Luttrell, of Owenton; W. O. Hinton, of Paris, and R. A. McDowell, of Louisville, represented the commercial organizations.

The last of the land that will have to be purchased by the Capitol Commission for the Capitol grounds was paid for Tuesday by State Auditor Frank P. James when he gave this warrant for \$2,500 to William Cromwell for a strip of ground fronting on Capitol avenue. This is the strip of ground that Governor Willson called a "postage stamp," and threatened to denounce the purchase of it in his annual message to the Legislature. The land is 64 feet front and 31 feet deep. The price was fixed by a Board of Arbitration selected by the commission and Cromwell.

Will Defend Their Position.

The experts who composed the Rensen board and decided that the use of benzene of soda in food products was not injurious will appear before the Association of State and National Food and Dairy Departments at Denver today to defend their position.

Request Not Yet Granted.

The officials of the War Department have not yet acceded to Mrs. Sutton's request that the body of her son be exhumed in order that the nature of the wound which caused his death may be determined. The Secretaries of the War and Navy Departments will be asked to pass on the request.

Optimism.

We have never met an optimist with an aching tooth.

Prisoner Was Not Affected.

Shortly after his rise to the bench, Judge Coleman of San Francisco had occasion to pronounce a life sentence upon a notorious offender. In the course of his remarks the judge spoke with so much feeling and eloquence that many of the listeners were deeply affected. The prisoner, on the other hand, seemed to be quite indifferent, looking at the ceiling and apparently giving no attention whatever to what was being said. After he had been remanded to jail one of the young lawyers had gone into the cell, curious to know how the criminal had felt when his honor was passing sentence upon him. "What do you mean?" asked the convicted one. "I mean when the judge was telling you you must go to prison for life." "You mean when he was talking to me?" "Yes." "Oh, I never paid no attention to Dick Coleman; he ain't no public speaker, no-how!"
